\*\*\*Returns from two Alturas precincts (Malad and Junction) were thrown out because the polls were moved: these were railway construction precincts, and the election was held where the voters were, rather than at the deserted places designated by the county commissioners. Inclusion of the two precincts (Singiser 808, Ainslie 54) gives Singiser 2285; Ainslie, 747. The Alturas total as canvassed was Singiser, 1477; Ainslie 693. The territorial total without these two Alturas precincts were Singiser 6262; Ainslie, 4016.

\*\*\*\*Oneida was omitted from the official territorial canvass. Thus the official territorial return, excluding Oneida and the two Alturas precincts not counted in the canvass, was Singiser, 5587; Ainslie, 3246.
