Website Project Graphic Organizer Storyboard

Before creating your actual website, you may want to make each of these "pages" a *separate* sheet of paper, to help you have your project super-organized. Keep your media in a separate file on desktop, so it's easy to find and insert!

Home Page	Background	Context	Description/Analysis
Student Name(s) Project Title Division/Category # Words, Website Media Length # Words, Process Paper	(Sketch out where you want to put paragraphs, facts, pictures, music, video clips, etc.)	(Sketch out where you want to put paragraphs, facts, pictures, music, video clips, etc.)	(Sketch out where you want to put paragraphs, facts, pictures, music, video clips, etc.)
Short-Term or Immediate Impact (Sketch out where you want to put paragraphs, facts, pictures, music, video clips, etc.)	Long-Term Significance or Legacy (Sketch out where you want to put paragraphs, facts, pictures, music, video clips, etc.)	Process Paper	Annotated Bibliography
